Bangladesh Study Tour 2026

WSO & International Angel Association

5 – 10 September 2026

Arrival at Angel Home

Children live in the Angel Home

THE STORY BEHIND ANGEL HOME

Yuriko Kawamura

Founder, International Angel Association

Inspired by the kindness shown to her daughter, Yuriko wanted to give back to society.

Together with Mr. Bari, she established the International Angel Association to support children in Bangladesh.

Her legacy continues through her family and the association's work.

Boys' Bedrooms

Rooms accommodate either two or four boys.

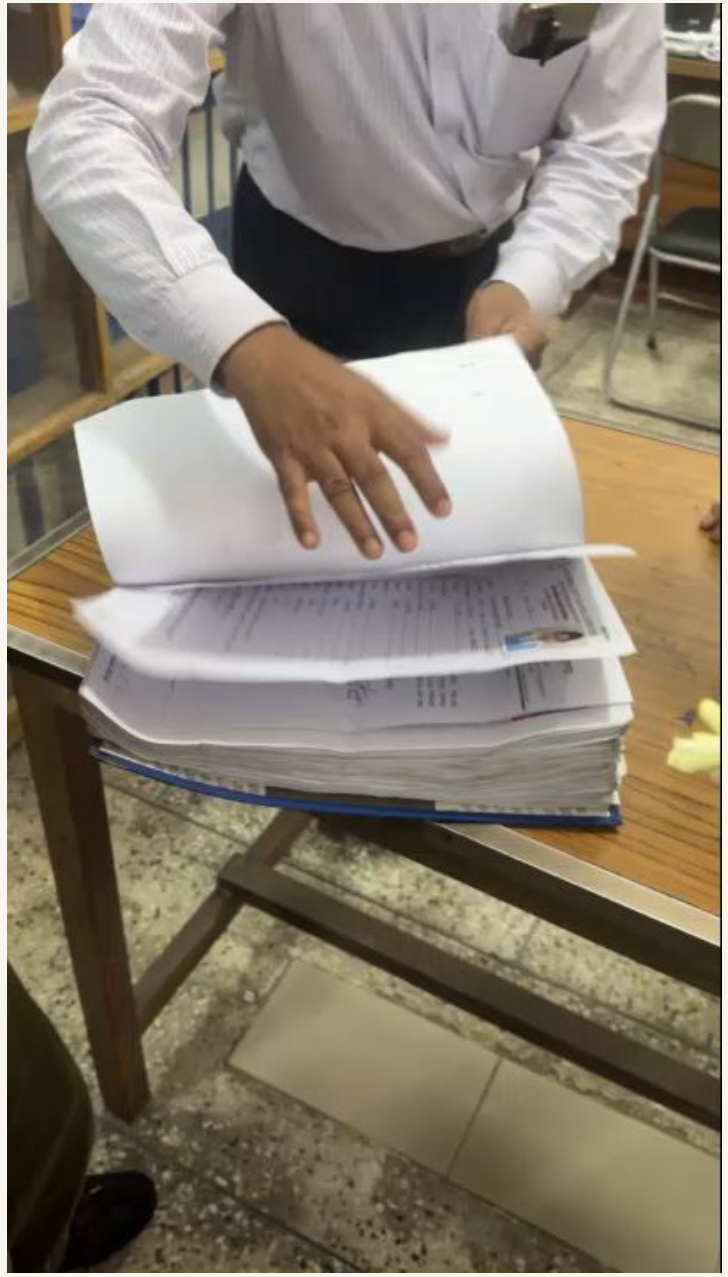

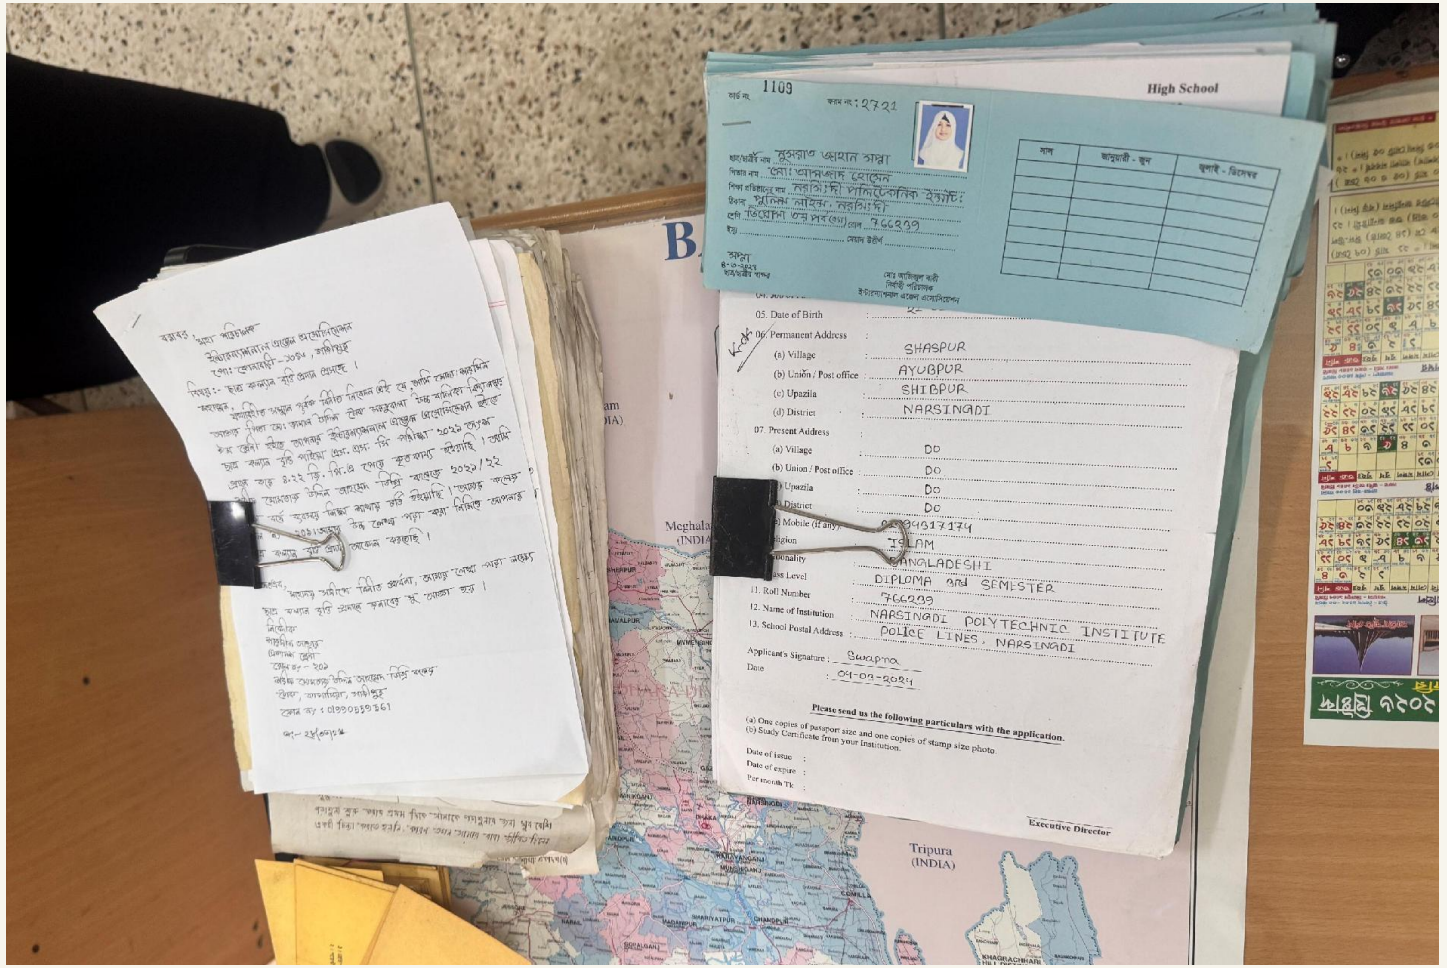

Girls' Bedrooms

Around 12 girls share one large room.

Staff Office

The students' records, academic reports and thank-you letters are carefully kept here for those supported by your generous contributions.

Our Dreams, Our Future

The children at Angel Home share their hopes and dreams for the future.

Students Supported by WSO

Supporting education beyond Angel Home

Most of these students are Angel Home graduates. WSO continues to support them by helping cover the costs of their university or vocational education.

A remarkable effort to meet us

One student even travelled eight hours each way just to be there! Such a lovely young person.

Full of hopes and dreams

It was truly heartwarming to meet them all. They were full of dreams, hopes and ambitions for the future.

Clinic at Angel Home

There is also a clinic on the grounds of Angel Home, which is open to the local community.

Ultrasound Examination Room

Can you believe it? This is a X-ray machine!

I was told that surgeries, including cataract operations, are performed here.

A Visit to Yuriko School Near Angel Home

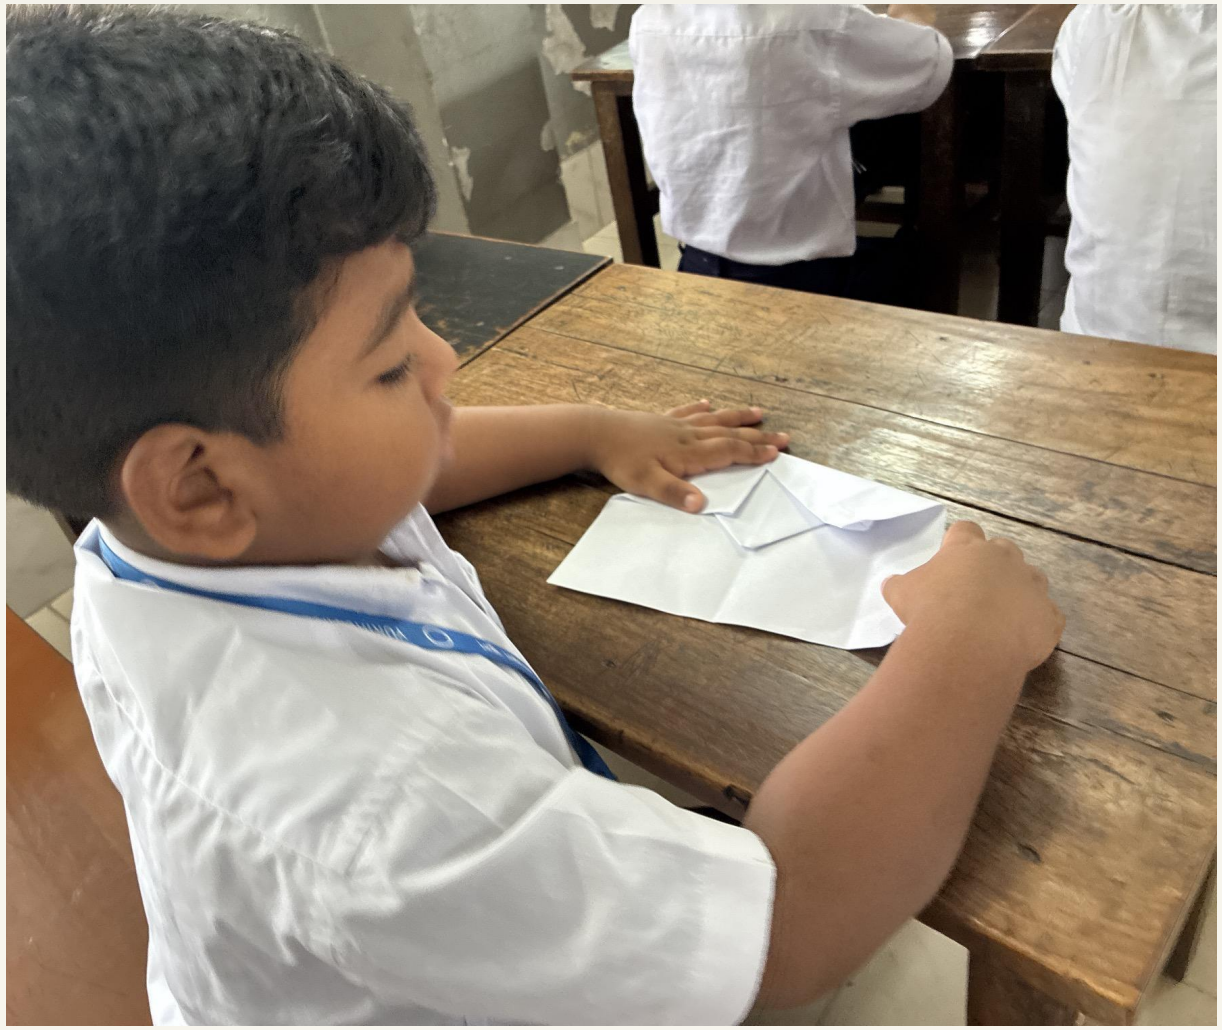

The students gave us a warm welcome.

During the morning assembly, the students sang the Japanese song “Furusato” (Hometown) for us.

We had an hour-long origami session with the students.

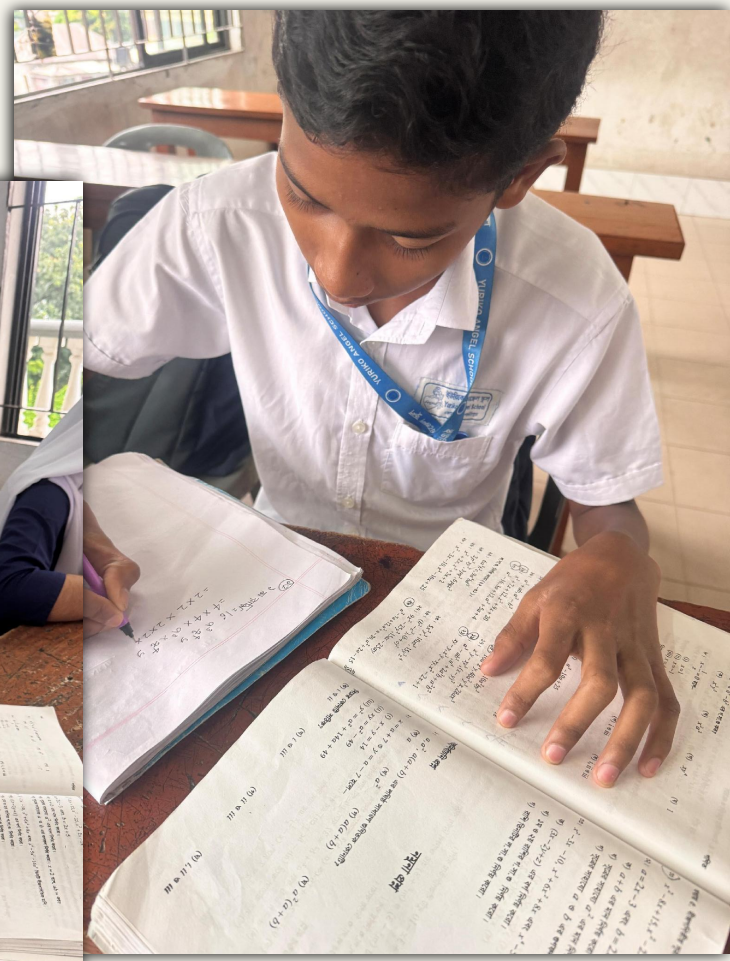

We also had the opportunity to visit classrooms while lessons were in progress. Everyone is working so hard!

Visit to a Rural Village in Kapasia

A 3-hours drive

The Students Were Awarded Scholarships.

Approximately 120 students receive educational support.

It was another hot and humid day in Bangladesh. Power outages are quite common, and unfortunately, there was one during the ceremony. With the ceiling fans not working, it was incredibly hot! The students didn't seem bothered by the heat at all, while we were absolutely drenched in sweat!

Literacy Classes

A chance to learn at any age
In the past, girls were often married off at a young age, sometimes in their early to mid-teens. Many of these women grew older without ever having the opportunity to learn to read or write.
The literacy programme gives these women the chance to develop basic reading and writing skills, regardless of their age.

Textbooks written by Mr. Bari
Interestingly, the textbooks were written by Bari himself. How wonderful!

Their enthusiasm was inspiring
When we asked the women whether they enjoyed attending the classes, they all immediately replied, “Yes!”
It was so lovely to see their enthusiasm for learning!

Visit to Even More Disadvantaged Families

in the Same Rural Village

The International Angel Association also provides support to the children from these families.

Thank You for Joining Us on This Journey

Together, we can help create a brighter future for these children.

Thank you for taking the time to learn about the children and the educational programmes supported by WSO.

Would you like to make a difference?

If you would like to support these children, donations to WSO are warmly welcomed.
